This is almost *exactly the same game as TAL: Arctic*. I mean, I'm presuming the mazes are different - even if they sure as sh\*t don't feel that way - and the music is different and the Achievements are executed a bit differently. But basically...*exactly the same game*.

*Oh, wait! Your yeti-like beastie now leaves footprints in the snow! Well then, I stand corrected. Seeing footprints appear in my wake definitely made the almost-hour of sameishness go quicker.*

*You ready for the really sad bit? I'm now going to "progress" straight onto TAL: Arctic 3. Partly out of a sense of completism, and partly to see what radical differences they made the third time 'round. And also to get an easy 100% Achievements on yet another game. Yay for me.*

*Verdict: 5.5\10 (+0.5 for the footprints, then -0.5 for the complete lack of reinvention beyond that. +0.5 again for possibly my favourite soundtrack in the series thus far. Third one coming up: Snkl Studio, don't let me down)!*
